Assistant Professor of Kinesiology – Search # 67575
Waters College of Health Professions / Department of Health Sciences and Kinesiology

The Department of Health Sciences and Kinesiology (HSK) in the Waters College of Health Professions invites applications and nominations for the position of Assistant Professor of Kinesiology on the Statesboro campus.

In January 2017, the University System of Georgia Board of Regents voted to consolidate Armstrong State University and Georgia Southern University. The new, 27,000-student university will be named Georgia Southern University with campuses in Savannah, Statesboro, and Hinesville. The expected timeline for the first entering class will be fall 2018. Complete details are available at http://consolidation.georgiasouthern.edu/.

Within this setting, the Department of Health Sciences and Kinesiology is a dynamic and growing unit of over 60 faculty and staff serving over 1,500 majors enrolled in undergraduate and graduate programs in areas that include health education and promotion, exercise science, athletic training/sports medicine, sport psychology, nutrition and food science, health administration, health and physical education, sport management, and coaching education. The department strives to become an elite academic unit and this position would contribute to that goal through the development of its undergraduate program in human performance/fitness management and its graduate program in sports medicine. The Bachelor of Science in Kinesiology (BSK) prepares undergraduate students in kinesiology with concentration areas in sport performance, allied health, tactical strength and conditioning, inclusive physical activity, personal training/coaching, and community fitness. The Master of Science in Kinesiology (MSK) degree program offers concentration areas in athletic training, exercise science, sport psychology, coaching education, and physical education.

Position Description. Reporting to the Chair of the Department, the Assistant Professor requires teaching, service, and research responsibilities as well as a terminal degree. The successful candidate will teach undergraduate and/or graduate courses in one or more of the concentration areas above; mentor students in graduate research; conduct research; promote and sustain interdisciplinary dialogue and service; hold membership in professional associations; and serve on committees and participate in official activities at the departmental, college, and university levels. The position is a 10-month, tenure-track appointment, and the salary is competitive and commensurate with qualifications and experience.

Required Qualifications:

- Earned doctorate in exercise physiology, human performance, kinesiology, sports medicine, or a closely related field by August 1, 2018.
- Commitment to excellence in teaching and learning as evidenced by a presentation with students present during the campus visit
- Promise of productive scholarship/creative activities consistent with the teacher-scholar model
Commitment to teaching, scholarship, and service that is consistent with the College’s priorities for the Department and the mission of the University
Ability to contribute to a positive work environment in the Department, College, and University
Technological literacy and a commitment to integrate technology in teaching and scholarship
Commitment to professional service within the University and beyond
Ability to work in a diverse academic and professional community
Must be authorized to work in the United States for the duration of employment without assistance from the institution

Preferred Qualifications:
- Professional involvement including leadership activities and certifications in ACSM, NSCA, NATA or other sports medicine affiliated professional organizations
- Interest in working with a collaborative research team in concussion and traumatic brain injury
- Experience in teaching undergraduate and graduate biomechanics
- Experience with online teaching

Screening of applications begins March 30, 2018, and continues until the position is filled. The preferred position starting date is August 1, 2018. A complete application consists of a letter addressing the qualifications cited above; a curriculum vitae; and the names, addresses, telephone numbers, and email addresses of at least three professional references. Other documentation may be requested. Only complete applications will be considered. Finalists will be required to submit to a background investigation. Applications and nominations should be sent to:
